

Welcome to the Cost of Living Calculator Worksheet. This form is designed to help the Referee keep control of character cash flow. It also helps the characters figure out how much money they'll need to earn monthly. I've started taking the worksheet beyond where Night Flyer left his off, adding some arbitrary figures to help improve expense calculations. I'll continue expanding regularly with your suggestions. With V 1.0, you'll notice I've already started implementing some extra features (especially those most useful for my own game), though I haven't worried too heavily about the appearance of the form. I'll be upgrading that a bit later.

Salary calculator			
Special Ability		SA Score	
Gross Salary		Calculate by Abilities
