Under Illefarn

By Stan Shinn

For Character Levels 1-3

Classic Modules Today

Introduction: In 1987, TSR published the module named “Under Illefarn” with the module code “N5”. It was written by Steve Perrin and illustrated by Jeff Easley and Luise Perenne. It consisted of a 48 page booklet and an outer folder containing maps. The module details the town of Daggerford and offers 4 adventures in the surrounding area including exploration of the titular mines. "Under Illefarn" was the first module produced specifically for the Forgotten Realms campaign setting. This conversion guide allows DMs to run the original module with 5th Edition rules and provides a reference sheet for encounters.

An adventure for 1st– 3rd level characters

by Stan Shinn
N5: UNDER ILLEFARN

Introduction

To use this conversion guide you will need a copy of "N5 Under Illefarn", originally available in hard-copy and now for sale in Digital format at www.dndclassics.com.

This document gives DMs advice to convert the module to the latest 5th Edition rules and guidance on preparing the adventure. A list of random encounters and a summary of Illefarn's factions provide a quick in-game reference. Most creatures refer to stat blocks in the D&D 5e Monster Manual. Some creatures have a full stat block in the Special Creatures section at the end of this conversion guide.

Page listings may refer to abbreviations: MM (Monster Manual), CR (Challenge rating), and DMG (Dungeon Master Guide). All other page number refer to the locations in the original 'Under Illefarn' module. Key text is in bold for easy scanning. Magic items are noted in italics.

Find more information about this and other early edition conversions at www.classicmodulestoday.com.

Reference Sheet

For convenience, there is a Reference Sheet at the end of this document which summarizes the key information you’ll need during the game onto one concise sheet. You can print this onto a single, double-sided page (perhaps on colored cardstock) as a handy tool that you can use alongside a hard copy of the module. After reading this document, all you’ll need to run the game is the original module, the Monster Manual, the Reference Sheet, and optionally any notes or visuals you’ve prepared.

Adventure Summary

The adventurers start out their careers as part of the Daggerford militia. Daggerford is located on the Sword Coast, several hundred miles from Waterdeep. The area is very much wild and uncivilized, with dangers aplenty.

That said, being a member of the Daggerford militia is a mostly calm job. Trouble occurs only occasionally, usually in the form of raids by lizardfolk out of Lizard Marsh, or orcs from the Misty Forest hitting caravans on the Trade Way.

However that changes when the earth shakes and the Shining River turns green, killing livestock, crops, and anyone who drinks the water. Now the King of the Laughing Hollow is asking for help from the militia, and it seems the earthquake may have opened up an entrance to the long lost dwarven mines of Illefarn.

Suddenly, being a militiaman is not as simple as it used to be.

Converting to the Realms

Since "Under Illefarn" is set in the Forgotten Realms, no conversion is necessary.

It is worth noting that this adventure pairs up very nicely with Ghosts of Dragonspear Castle, available on DMsGuild.com.

GM Notes

Special rules and tactics to brush up on prior to the game:

• Leverage Conversation Reaction table (DMG 245) for NPC reactions.
• Know rules for throwing a lit flask of oil.
• Know how to use perception rules for spotting traps, secret doors, and stealthed creatures.
• Determine spell tactics for spellcasters.
• Become familiar with the NPCs of Daggerford, as the characters will be interacting with many of them.

Visuals

Suggested visuals to create:

• Print, or sketch the Daggerford City Map for the players.
• Print or sketch the map of Daggerford and Surrounding Regions for the players.
• Print or sketch Meldar’s Map for the players.

Traps

- **Acid Trap (pg. 37):** A hidden pressure plate in the floor triggers this trap. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it. When triggered, a ceiling panel opens and upends a pot of acid. The acid has long since evaporated, but there is a 50% chance the lid.

- **Crossbow Trap (pg. 37):** Triggers by a pressure plate, this trap shoots a hail of heavy crossbow bolts. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it. When triggered, creatures within 20 feet of the trigger take 2d10 piercing damage on a failed DC 15 Dexterity saving throw, or half as much on a successful one.

- **Crushing Wall Trap (pg. 38):** Triggered by a pressure plate on the floor, a wall slides across the corridor to crush victims. However the trap is old and slow, and victims have time to evade the wall. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it. All creatures in a 10 foot by 10 foot area have 3 rounds to get out of that area. Anyone still in the area at the end of 3 rounds is crushed for 10d10 bludgeoning damage.

- **Deadfall Trap (pg. 37):** Triggered by a pressure plate on the floor, this trap drops a large pot of alchemist's fire on the victim. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it. The creature that triggered the trap takes 2d10 bludgeoning damage on a failed DC 15 Dexterity saving throw, or half as much on a successful one.

- **Falling Cage Trap (pg. 38):** Triggered by a pressure plate. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it. When triggered all creatures in a 10 foot by 10 foot area are trapped by the falling cage, unless they succeed at a DC 15 Dexterity saving throw. The cage is very heavy, requiring a DC 20 Strength check to lift.

- **Firebomb Trap (pg. 37):** Triggered by a pressure plate on the floor, this trap drops a large pot of alchemist's fire on the victim. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it. The creature that triggered the trap takes 2d10 fire damage on a failed DC 15 Dexterity saving throw, or half as much damage on a success.

- **Net Trap (pg. 38):** See Falling Net trap (DMG pg. 122).

- **Pit Trap (pg. 38):** Triggered when a creature walks onto the lid. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching, DC 15 Intelligence (Investigation) check to determine how to disarm, DC 15 Dexterity check using thieves tools to disable it by using tools to break the door handle tripwires. When triggered the creature falls 10 feet onto rusty spikes, taking 1d6 falling damage and 2d6 piercing damage from the spikes, unless it succeeds at a DC 15 Dexterity saving throw.

**Special Items**

**Amulet of Allosaurus Control**

*Wondrous item (amulet), rare (attunement required)*

This amulet is made from an allosaurus tooth, scribed with mystic symbols, and fixed with a bronze cap and loop to hang from a leather thong.

The amulet has 3 charges remaining that do not replenish. You can spend an action to use a charge to call an allosaurus to aid you. The action succeeds only if there is an allosaurus within 1 mile to answer the beckon call of the amulet. The allosaurus arrives as fast as it can, and remains under your control for 1 hour.

Traps

Acid Trap (pg. 37): A hidden pressure plate in the floor triggers this trap. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching. DC 15 Intelligence (Investigation) check to determine how to disarm. DC 15 Dexterity check using thieves tools to disable it. When triggered, a ceiling panel opens and a pot of acid. The acid has long since evaporated, but there is a 50% chance the pot will fall and hit the triggering creature for 2d10 bludgeoning damage, unless it succeeds at a DC 15 Dexterity saving throw.

Crossbow Trap (pg. 37): Triggered by a pressure plate on the floor, this trap shoots a hail of heavy crossbow bolts. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching. DC 15 Intelligence (Investigation) check to determine how to disarm. DC 15 Dexterity check using thieves tools to disable it. When triggered, creatures within 20 feet of the trigger take 2d10 piercing damage on a failed DC 15 Dexterity saving throw, or half as much on a successful one.

Crushing Wall Trap (pg. 38): Triggered by a pressure plate on the floor, a wall slides across the corridor to crush victims. However the trap is old and slow, and victims have time to evade the wall. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching. DC 15 Intelligence (Investigation) check to determine how to disarm. DC 15 Dexterity check using thieves tools to disable it. All creatures in a 10 foot by 10 foot area have 3 rounds to get out of that area. Anyone still in the area at the end of 3 rounds is crushed for 4d10 bludgeoning damage.

Deadfall Trap (pg. 37): Triggered by a pressure plate on the floor, this trap rains rocks down on the victim. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching. DC 15 Intelligence (Investigation) check to determine how to disarm. DC 15 Dexterity check using thieves tools to disable it. When triggered, the trap triggers the creature for 2d10 bludgeoning damage on a failed DC 15 Dexterity saving throw, or half as much on a successful one.

Falling Cage Trap (pg. 38): Triggered by a pressure plate on the floor, this trap drops down on the victim. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching. DC 15 Intelligence (Investigation) check to determine how to disarm. DC 15 Dexterity check using thieves tools to disable it. When triggered, all creatures in a 10 foot by 10 foot area are trapped by the falling cage, unless they succeed at a DC 15 Dexterity saving throw. The cage is very heavy, requiring a DC 20 Strength check to lift.

Firebomb Trap (pg. 37): Triggered by a pressure plate on the floor, this trap drops a large pot of alchemist’s fire on the victim. DC 15 passive Wisdom (Perception) check to spot, or DC 12 Wisdom (Perception) check if actively searching. DC 15 Intelligence (Investigation) check to determine how to disarm. DC 15 Dexterity check using thieves tools to disable it. The creature that triggered the trap takes 2d10 fire damage on a failed DC 15 Dexterity saving throw, or half as much damage on a success.

Net Trap (pg. 38): See Falling Net trap (DMG pg. 122).
