Magic Moon Sorcerer

Fighting evil by moonlight, winning love by daylight, never running from a real fight.
The Magic Moon

The bottommost layer of Celestia, Lunia is known as the Silver Heaven for its seas of holy water that illuminate with a silvery glow. Among the many wonders this place holds, legend tells of a select group of Celestine Guardians that are sent to the Material Plane during times of darkness. When they are needed the most, a group of Magic Moon Guardians will be selected upon their 14th birthday, charged with defending those that cannot defend themselves in the name of goodness, love, and justice.

Sorcerous Origin: Celestial Protector

Your innate magic is granted to you through direct lineage with a great warrior from Mount Celestia. Some Celestial Protectors even claim to be actual reincarnations of such warriors, and tales of these guardians date back through the ages. These powers don't show themselves until the 14th birthday, upon which the new Protector is granted their magics from a talking animal guide, often bestowing the child with their first of many magical gifts. These animals immediately become companions to the new guardians, and devote themselves to a lifetime of service.

Animal Guide

Starting at 1st level, when you choose the Celestial Protector origin, you are given the Find Familiar spell. This spell does not count against your spells known. In addition to this, the Familiar can speak and read all languages that you can. Due to the nature of Animal Guardians, the form is ultimately decided by the DM (though a good DM would try to say "yes!") to their player wink wink and they cannot change form like a standard Familiar; however, the cost for restoring your Familiar by ritual casting Find Familiar is removed, costing no gp.

Magical Gifts

Also at 1st level, you are given your first Magical Gifts. The fundamental gift is a magical brooch. This brooch can look however you wish and it represents your connection to Mount Celestia and Lunia; it is also your spellcasting focus. You need this brooch to cast the Magic Moon Sorcerer spell, Magical Armor. You will recieve two more Magical Gifts, one each at 6th and 14th level.

Magical Armor

1st-level Abjuration

Casting Time: 1 action
Range: Self
Components: V, S, M (Your Lunar Brooch)
Duration: 8 Hours

You say the Magic Words, and perform the Celestial Movements to cast Magical Armor on yourself. Upon casting, all the clothing you're wearing transforms into your magical uniform and grants you your Magical Tiara, which is necessary to cast the Radiant Tiara cantrip. Your AC becomes 13+ your Dexterity modifier. While in this form, you become unrecognizable to every other creature, regardless of how well they know you, although your appearance barely changes. Only those that witness the actual transformation will be able to discern your secret identity. In addition to these features, you also gain temporary hit points equal to your Sorcerer level. The spell ends if you don armor, or if you dismiss the spell as an action.

At Higher Levels When you cast this spell using a slot of 3rd level, your AC becomes 14+ your Dexterity modifier. When you cast this spell using a spell slot of 5th level, your AC becomes 15+ your Dexterity modifier. When you cast this spell using a spell slot of 7th level, your AC becomes 16+ your Dexterity modifier.

Bonus Cantrip

In addition to these features, at 1st level you gain the Radiant Tiara cantrip. This does not count against your cantrips known.

Radiant Tiara

Evocation Cantrip

Casting Time: 1 action
Range: 90 Feet
Components: V, S, M (Your Lunar Tiara)
Duration: Instantaneous

You remove the Magical Tiara from your head and send it out rapidly toward your enemies as it glows like bright silvery moonlight. Make a ranged spell attack. On hit, the target takes 1d8 radiant damage. The tiara teleports back atop your head at the end of the spell.

At Higher Levels At higher levels, the spell can ricochet toward another target that you can see within 30ft of the most recent target that was also hit. Make another spell attack for each ricochet. You cannot make another spell attack if you miss an attack. At 5th level, it can ricochet one time. At 11th level it can ricochet twice. At 17th level, it can ricochet three times. In addition to this, the spell's damage increases by 1d8 at 5th level, 2d8 at 11th level, and 3d8 at 17th level.
**Magical Gift: Celestial Rod**

Starting at 6th level, you are given a magical rod with which you can restore the corrupted. As an action, and within a range of 60 ft, you may choose to end one of the following effects on a creature that you can see:

- End possession by an elemental, fey, fiend, or undead
- End the polymorph spell
- End the Fear condition
- End the Charmed condition

Any creature you help in this way is immune to the effect you dispelled for the next 24 hours. You may use this feature once per long rest.

**Fight for Hope**

Starting at 6th level, when you cast the *Radiant Tiara* cantrip, you may add your Charisma modifier to the damage of each attack roll.

**Magical Gift: Scepter of Lunia**

Starting at 14th level, you are given an ancient weapon from the lowest layer of Mount Celestia. This scepter is capable of purging an evil entity from existence. As an action, and within a range of 120 ft, you may make a spell attack against one creature as ribbons of radiant energy burst from the scepter. If this creature has an evil alignment, it takes 10d10 radiant damage. If this damage reduces the creature to 0 hit points, they are smote from existence, leaving behind only a pile of dust, and restoring 2 sorcery points that are added back into your font of magic. If the creature is of neutral alignment, it takes half damage; if it dies, it does not turn to dust and you gain no sorcery points. If a creature is good aligned, it is immune to this damage. You may use this feature once per long rest.

**Love & Justice**

Beginning at 18th level, when you transform with the *Magical Armor* spell, you also exude an aura of Love & Justice that aids your companions in your fight against evil and that lasts the duration of the spell. This grants you and allies of your choice within a radius of 15 ft the following benefits:

- +1 to all Saving Throws
- All healing does the maximum amount
- Can use the Help action as a Bonus Action

**Bonus Spells**

In addition to bestowing their guardians with incredible powers, Mount Celestia also gives its Magic Moon Sorcerers a bevy of new and incredible spells to use in the fight against evil in all its forms.

Whenever you gain a level of Magic Moon Sorcerer, you may choose from these spells instead of the spells from the Sorcerer Spell List (PHB 210), as long as you can learn a spell of that level.
