Clerical spells range from the humble to the indispensable to the miraculous. The spells cover the following main areas:

- **Healing:** The most fundamental clerical spells are those with the ability to heal. Indeed, these spells are very often the primary reason adventuring parties seek out clerics to join their ranks! Any adventurer with the humble 1st level *cure light wounds* memorized is a major boon to their companions, able to restore lost hit points. Higher level spells grant the ability to cure diseases and poisons. The most powerful clerical healing magic can even return the deceased to life.

- **Defence:** The secondary role of clerical magic lies in protection against harmful environments and warding of evil forces. Low-level spells can conjure light in dark places or make spoiled food safe to eat. Higher-level spells can unravel baneful enchantments and banish great evils.

- **Divination:** Finally, the cleric spell list features a wide range of spells that bestow knowledge of that which is hidden. Low level spells grant the ability to detect magic, traps, and evil intent. More powerful spells allow communication with animals and plants, locating lost objects, and even direct communion with deities!

Magic-user spells range from the utilitarian to the flashy. The spells cover the following main areas:

- **Offence:** The most iconic magic-user spells are those that harm or incapacitate enemies. From the ability to cause large groups of creatures to fall into an instant slumber, to mid-level spells that can paralyse, incinerate, or electrify foes, to greater magicks that can kill outright, disintegrate, or turn to stone. In an adventuring party, a magic-user’s offensive spells are invaluable for their ability to instantly defeat large groups of enemies.

- **Misdirection:** Secondary is the role of spells of deceit and misdirection. At all levels, the magic-user spell list includes magicks to conjure illusions, to charm the unwitting, and to baffle the senses.

- **Movement:** Finally, the magic-user spell list features a wide range of spells that enable or prevent movement. From barring or opening doors, to carrying heavy loads, to granting the power of flight, to conjuring barriers of energy.

**1st Level Spells**

**Cure Light Wounds**

Duration: Instant  
Range: The caster or a creature touched

This spell has two uses:

1. **Healing a living subject:** Restores 1d6+1 hit points of damage. This cannot grant more hit points than the subject’s normal maximum.

2. **Curing paralysis:** Paralysing effects are negated.

**Reversed: Cause Light Wounds**

Inflicts 1d6+1 hit points of damage to a touched creature. In combat, a melee attack roll is required.

**Detect Evil**

Duration: 6 turns  
Range: 120’

Objects enchanted for evil purposes or living beings with evil intentions are caused to magically glow.

> **Intent only:** This spell does not grant the ability to read minds, but only grants a general sense of evil intent.

> **Definition of evil:** The referee must decide what is “evil”. Some things that are potentially harmful, like traps, are not “evil.”

**Detect Magic**

Duration: 2 turns  
Range: 60’

Enchanted objects, areas, or creatures are caused to glow. Both permanent and temporary enchantments are revealed.

**Light**

Duration: 12 turns  
Range: 120’

This spell has three usages:

1. **Conjuring light:** In a 15’ radius. The magical light is sufficient for reading, but is not as bright as daylight. The spell may be cast upon an object, in which case the light moves with the object.

2. **Blinding a creature:** By casting the spell upon its eyes. If the target fails a **saving throw versus spells**, it is blinded for the duration. A blind creature cannot attack.

3. **Cancelling darkness:** **Light** may cancel a **darkness** spell (see below).

**Reversed: Darkness**

Creates a 15’ radius area of magical blackness, preventing normal sight (but not infravision). Like **light**, it may alternatively be used to blind creatures or to dispel a **light** spell.
Protection from Evil

Duration: 12 turns  
Range: The caster

This spell wards the caster from attacks by creatures of another alignment, as follows:

- **Bonuses:** The caster gains a +1 bonus to saving throws against attacks or special abilities of affected creatures.
- **Affected creatures’ attacks:** Against the caster are penalised by –1.
- **Enchanted, constructed, or summoned creatures:** The spell additionally prevents such creatures from attacking the caster in melee, though they may still make ranged attacks. If the caster engages such a creature in melee, this protection is broken (the caster still gains the save and attack bonuses mentioned above).

Purify Food and Water

Duration: Permanent  
Range: 10’

This spell makes spoiled, rotten, poisonous, or otherwise contaminated food and water pure and suitable for eating and drinking. One of the following may be affected:

- **Drink:** 6 quarts.
- **Rations:** One trail ration (iron or standard).
- **Unpreserved food:** A quantity sufficient for 12 human-sized beings.

Remove Fear

Duration: 2 turns  
Range: The caster or a creature touched

The creature touched is calmed and purged of fear. Magically induced fear may be dispelled, but this requires the subject to make a saving throw versus spells. The save is modified by +1 per level of the caster.

Reversed: Cause Fear

Will cause a target within 120’ to flee for the duration unless it saves versus spells.

Resist Cold

Duration: 6 turns  
Range: 30’

All creatures within range are protected from cold, as follows:

- **Normal cold:** Unharmed by non-magical freezing temperatures.
- **Save bonus:** Gain a +2 bonus to all saving throws versus cold-based magical or breath attacks.
- **Cold-based damage:** Is reduced by 1 point per damage die rolled. (Each die inflicts a minimum of 1 hit point damage.)
2nd Level Spells

Bless
Duration: 6 turns
Range: 60’

May be used in one of two situations:

1. **Battle**: Allies within a 20’ square area who are not yet in melee gain a +1 bonus to attack and damage rolls and a +1 bonus to morale.

2. **Ritual**: Casting *bless* may also form part of rituals of purification or consecration, at the referee’s discretion.

Reversed: Blight

Incurs a –1 penalty to morale checks, attacks rolls, and damage rolls of enemies within a 20’ square area. A *save versus spells* is allowed to resist the *blight*.

Find Traps

Duration: 2 turns
Range: 30’

Trapped objects or areas within range of the caster glow with a magical blue light.

- Magical and mechanical traps: Are both detected.
- No knowledge: About the nature of the trap or how to deactivate it is granted.

Hold Person

Duration: 9 turns
Range: 180’

This spell causes one or more humans, demihumans, or humanoid monsters to be paralysed if they fail a *saving throw versus spells*. It may be cast in two ways:

1. **Against an individual**: The target’s saving throw is penalised by –2.
2. **Against a group**: 1d4 individuals in the group are targeted.

Restrictions: Humanoids of greater than 4+1 HD and undead are not affected.

Know Alignment

Duration: 1 round
Range: 10’

The caster gains immediate knowledge of the alignment of one character, monster, object, or location within range. (Most objects or locations do not have an alignment, but magic items or holy places might.)
Resist Fire

Duration: 2 turns
Range: 30’

A single creature is bestowed with supernatural resistance to fire, as follows:

- **Normal heat**: Unharmed by non-magical heat or fire.
- **Save bonus**: Gain a +2 bonus to all saving throws versus fire-based magical or breath attacks.
- **Fire-based damage**: Is reduced by 1 point per damage die rolled. (Each die inflicts a minimum of 1 hit point damage.)

Silence 15’ Radius

Duration: 12 turns
Range: 180’

A 15’ radius area is rendered utterly silent.

- **Within the area**: All sound is stopped. Conversation and spell casting are impossible.
- **Noise from outside the area**: Can be heard by those within it.
- **Casting upon a creature**: *Silence* may be cast upon a creature, which must save versus spells. If the save fails, the 15’ radius area of silence moves with the creature. If the save succeeds, the spell’s effect remains stationary—the targeted creature may move out of it.

Snake Charm

Duration: 1d4+1 rounds or turns
Range: 60’

One or more snakes are rendered non-hostile, rearing up and swaying to and fro but not attacking.

- **HD affected**: The spell affects snakes whose total Hit Dice do not exceed the caster’s level. For example, a 7th level caster can affect 7 HD of snakes, which can equal seven 1 HD snakes, or two 3 HD snakes and one 1 HD snake, or any other combination.
- **Duration**: When cast on snakes that are already attacking, the spell lasts for 1d4+1 rounds. Otherwise, it lasts for 1d4+1 turns.

Speak with Animals

Duration: 6 turns
Range: 30’

The caster can communicate with one type of animal within range when the spell is cast.

- **Type of animal**: Ordinary animals or giant versions of ordinary animals may be targeted.
- **Questions**: The caster can ask questions of and receive answers from animals of the chosen kind, although the spell doesn’t make animals any more friendly or cooperative than normal (a reaction roll may be required).
- **Services**: If an animal is friendly toward the caster, it may perform some favour or service.
### 3rd Level Spells

#### Continual Light

**Duration:** Permanent  
**Range:** 120’

This spell has three usages:

1. **Conjuring light:** In a 30’ radius. The magical light is as bright as full daylight (creatures that suffer attack penalties in daylight are affected). The spell may be cast upon an object, in which case, the light moves with the object.

2. **Blinding a creature:** By casting the spell upon its eyes. If the target fails a *saving throw versus spells*, it is blinded. A blind creature cannot attack.

3. **Cancelling darkness:** *Continual light* may cancel a *continual darkness* spell (see below).

#### Reversed: Continual Darkness

Creates a 30’ radius area of magical blackness, preventing both normal sight and infravision. Light sources brought within the area of darkness do not illuminate it. Like *continual light*, it may alternatively be used to blind creatures or to dispel a *continual light* spell.

---

#### Cure Disease

**Duration:** Instant  
**Range:** 30’

This spell has two uses:

1. **Cure a subject of any disease:** Including those of magical origin.

2. **Kill green slime:** This monster (see *Classic Fantasy: Monsters*) is killed instantly.

#### Reversed: Cause Disease

Inflicts a terrible, withering disease on a victim, if a *saving throw versus spells* is failed. The disease has the following effects:

- **Death:** Within 2d12 days.
- **Attack penalty:** −2 to attack rolls.
- **Natural healing:** Takes twice the usual amount of time.
- **Magical healing:** Is utterly ineffective.
- **Curing:** This disease can be cured with a casting of *cure disease*.
**Growth of Animal**

Duration: 12 turns  
Range: 120’

One non-magical, normal animal is doubled in size and strength when this spell is cast upon it.

- **Damage:** The damage inflicted by the animal’s attacks is doubled.
- **Load:** The amount of weight the animal can carry is doubled.

**Restrictions:** This spell may be used on giant versions of normal animals, but intelligent animals and fantastic monsters are unaffected.

**Locate Object**

Duration: 6 turns  
Range: 120’

The caster can sense the direction (but not distance) of an object. One of two types of object may be located:

1. **General class:** An object of a general class (e.g. a stairway, an altar, etc). In this case, the nearest object of that type is located.
2. **Specific object:** A specific object which the caster can clearly visualise in all aspects.

**Restrictions:** This spell cannot be used to locate creatures.

**Remove Curse**

Duration: Instant / Permanent (curse)  
Range: The caster or a creature touched

*Remove curse* instantaneously removes one curse from a creature. It may allow a character to discard a cursed magic item.

**Reversed: Curse**

Places a deleterious effect upon a creature, if it fails a *save versus spells*.

- **Effects:** The exact form and effects of the curse are determined by the caster.
- **Maximum possible effects include:** A –2 penalty to saving throws, a –4 penalty to hit, reducing an ability score by 50%.
- **Multiple curses:** May afflict a creature, as long as each has a different effect.
- **Referee judgement:** The referee should judge the effects of this spell and may turn overly powerful curses back onto the caster!

**Striking**

Duration: 1 turn  
Range: 30’

A single weapon is enchanted:

- **Damage:** It deals an additional 1d6 damage.
- **Treated as magical:** It is able to harm monsters which are normally only harmed by magical weapons.
4th Level Spells

Create Water

Range: Touch

This spell causes a magical fount to spring forth from the ground or a wall.

▶ Volume: The fount produces approximately 50 gallons of water—enough to sustain twelve humans and twelve mounts for one day.

▶ Higher level casters: If the caster is higher than 8th level, water sufficient for an additional twelve humans and mounts is produced for each level beyond 8th.

Cure Serious Wounds

Inflicts 2d6+2 hit points of damage to a touched creature. In combat, a melee attack roll is required.

Neutralize Poison

Duration: Instant

1. Characters: Neutralize the effects of poison on a character. A character who has died from poisoning can be revived, if neutralize poison is cast within ten rounds.

2. Items: Remove poison from an item.

Protection from Evil 10’ Radius

Duration: 12 turns
Range: 10’ around the caster

This spell wards the caster and all allies within 10’ from attacks by creatures of another alignment, as follows:

▶ Bonuses: Those warded gain a +1 bonus to saving throws against attacks or special abilities of affected creatures.

▶ Affected creatures’ attacks: Against those warded are penalised by –1.

▶ Enchanted, constructed, or summoned creatures: The spell additionally prevents such creatures from making melee attacks against those warded, though they may still make ranged attacks. If any of the warded party engages such a creature in melee, this protection is broken (those warded still gain the save and attack bonuses mentioned above).
Speak with Plants

**Duration:** 3 turns  
**Range:** 30’

This spell has two uses:

1. **Normal plants:** Communication with normal plants. The caster is able to ask questions and receive answers and may ask for simple favours. Plants may comply, if the request is within their ability to understand and perform. For example, densely overgrown plants may clear a passageway through which the caster and party may travel.

2. **Monstrous plants:** Communication with plant-like or plant-based monsters.

- **When killed:** Revert back to sticks.
5th Level Spells

Commune

Duration: 3 turns
Range: The caster

- **Questions:** The caster may ask three questions per casting. Once per year, the caster may instead ask six questions.
- **Answers:** Each question receives a simple “yes” or “no” answer.

Dispel Evil

Duration: Concentration (up to 1 turn) or instant (see below)
Range: 30’

This spell has three uses:

1. **Ward:** By concentrating and remaining stationary, enchanted or undead monsters that come within range may be banished or destroyed. Each monster may **save versus spells** to avoid banishment or destruction. If a monster’s save succeeds, it flees the affected area.

2. **Target single monster:** Instantly banish or destroy a single enchanted or undead monster within range. The monster may **save versus spells** (with a –2 penalty) to avoid banishment or destruction. If the monster’s save succeeds, it flees the affected area.

3. **Dispel curse:** Instantly dispel the hold that a cursed item has over a being within range.

Insect Plague

Duration: Concentration (up to 1 day)

- **Vision:** Within the area of the swarm is obscured.
- **Creatures of 2 HD or less:** Are driven away, if caught within the swarm.
- **Concentration:** If the caster moves or loses concentration, the swarm dissipates, ending the spell.

**Restrictions:** The spell has no effect if cast underground.
**Quest**

Duration: Until quest is completed / Instant (remove quest)
Range: 30’

The caster commands a single subject to perform a specific quest or task.

- **Examples:** Rescuing a prisoner, killing a specific monster, bringing a magic item to the caster, or going on a journey to a holy site.

- **Suicidal quests:** The prescribed quest must not be obviously suicidal.

- **Saving throw:** The subject may save versus spells, with success indicating that the quest has no effect.

- **Refusal:** The subject must undertake the quest or fall under a curse (per the curse spell, with the exact nature of the curse determined by the referee).

- **Completion:** Once the task is completed, the spell ends.

**Reversed:** Remove Quest

Can dispel an active quest spell. If the character who cast the quest spell to be nullified is higher level than the character casting remove quest, there is a chance of the spell having no effect. The probability of failure is 5% per level the caster is below the caster of quest.

**Raise Dead**

Duration: Instant
Range: 120’

This spell has two uses:

1. **Restore life:** To a recently deceased human or demihuman. See below.

2. **Destroy undead:** A single undead monster is destroyed, if it fails a saving throw versus spells.

**Restoring life:** When used to restore life, the following stipulations apply:

- **Time limit:** The caster can raise a person that has been dead for no longer than four days per level of the caster above 7th. For example, a 10th level caster can revive a character that has been dead for twelve days (three levels above 7th × four days).

- **Weakness:** Returning from death is an ordeal. Until the subject gets two full weeks of bed rest, they have 1 hit point, move at half the normal rate, cannot carry heavy items, and cannot attack, cast spells, or use other class abilities. This period of weakness may not be shortened by any magical healing.

**Reversed:** Finger of Death

Directs a ray of deadly magic at a single target. If the target fails a saving throw versus death, it dies instantly. Casting finger of death is a chaotic act; it will only be used by lawful casters in desperate situations.
**1st Level Spells**

**Charm Person**

Duration: One or more days (see below)  
Range: 120’

A single, humanoid creature must save versus spells or be charmed, as follows:

- **Subject’s nature:** Commands that contradict the charmed creature’s habits or alignment may be ignored.
- **Suicidal commands:** An affected creature never obeys suicidal or obviously harmful orders.

**Restrictions:** Humanoids of greater than 4+1 HD and undead are not affected.

- **INT 13–18:** The creature gains a new save once every day.

- **Opening by force:** Creatures with at least 3 Hit Dice more than the caster can open the held portal with one round of effort.
Light

Duration: 6 turns +1 per level  
Range: 120’

This spell has three usages:

1. **Conjuring light:** In a 15’ radius. The magical light is sufficient for reading, but is not as bright as daylight. The spell may be cast upon an object, in which case the light moves with the object.

2. **Blinding a creature:** By casting the spell upon its eyes. If the target fails a **saving throw versus spells**, it is blinded for the duration. A blind creature cannot attack.

3. **Cancelling darkness:** Light may cancel a darkness spell (see below).

---

**Magic Missile**

Duration: 1 turn  
Range: 150’

This spell conjures a glowing dart of energy that the caster may choose to shoot at a visible target within range.

- **Hit:** The missile hits unerringly (no attack roll or saving throw is required).
- **Damage:** The missile inflicts 1d6+1 damage.
- **Higher level casters:** May conjure more missiles: two additional missiles are conjured per five experience levels the caster has gained (i.e. three missiles at 6th–10th level, five missiles at 11th–15th level, etc.). Multiple missiles may be directed at a single target.

---

**Protection from Evil**

Duration: 6 turns

- **Affected creatures’ attacks:** Against the caster are penalised by –1.
- **Enchanted, constructed, or summoned creatures:** The spell additionally prevents such creatures from attacking the caster in melee, though they may still make ranged attacks. If the caster engages such a creature in melee, this protection is broken (the caster still gains the save and attack bonuses mentioned above).

---

**Read Languages**

Duration: 2 turns

- **Spell books**: A spell book written by another arcane spell caster can be deciphered.
- **Inscriptions**: Runes or magical words inscribed on an object or surface can be understood.
- **Reading again**: Once the caster has read a magical inscription using read magic, they are thereafter able to read that particular writing without recourse to the use of this spell.

*Shield* creates an invisible field of force that protects the caster:

- **Against missile attacks**: The caster’s AC is 2 [17].
- **Against other attacks**: The caster’s AC is 4 [15].

Sleep

Duration: 4d4 turns
Range: 240’

A *sleep* spell causes a magical slumber to come upon creatures, excluding the undead. The spell may target either:

1. A **single creature**: With 4+1 Hit Dice.
2. A **group**: A total of 2d8 Hit Dice of creatures of 4 HD or lower each.

**Killing**: Creatures enchanted by this spell are helpless and can be killed instantly with a bladed weapon.

**Awakening**: Slapping or wounding awakens an affected creature.

When targeting a group: Of creatures of 4 HD or less, the following rules apply:

- **Weakest first**: Targets with the least HD are affected first.
- **HD**: Calculate monsters with less than 1 HD as having 1 HD and monsters with a bonus to HD as having the flat amount. (For example, a 3+2 HD monster would be calculated as having 3 HD.)
- **Excess**: Rolled Hit Dice that are not sufficient to affect a creature are wasted.

Range: 60’

The caster may make their voice appear to come from any location or source (e.g. a statue or animal) within range.
2ND LEVEL SPELLS

Continual Light

Duration: Permanent
Range: 120’

This spell has three usages:

1. **Conjuring light:** In a 30’ radius. The magical light is sufficient for reading, but is not as bright as daylight. The spell may be cast upon an object, in which case the light moves with the object.

2. **Blinding a creature:** By casting the spell upon its eyes. If the target fails a saving throw versus spells, it is blinded. A blind creature cannot attack.

3. **Cancelling darkness:** Continual light may cancel a continual darkness spell (see below).

Reversed: Continual Darkness

Creates a 30’ radius area of magical blackness, preventing both normal sight and infravision. Light sources brought within the area of darkness do not illuminate it. Like continual light, it may alternatively be used to blind creatures or to dispel a continual light spell.

Detect Invisible

Duration: 6 turns
Range: 10’ per level

Invisible creatures or items in range are revealed to the caster.

Detect Evil

Duration: 2 turns
Range: 60’

Objects enchanted for evil purposes or living beings with evil intentions are caused to magically glow.

- **Intent only:** This spell does not grant the ability to read minds, but only grants a general sense of evil intent.

- **Definition of evil:** The referee must decide what is “evil”. Some things that are potentially harmful, like traps, are not “evil.”

ESP

Duration: 12 turns
Range: 60’

This spell grants the caster the ability to perceive and understand the thoughts of other living creatures.

- **Focus for 1 turn:** To pick up thoughts, the caster must focus their concentration in one direction for one turn.

- **After this turn:** The thoughts of all creatures within range in that direction can be perceived.

- **Multiple creatures:** If multiple creatures are within the range in the direction being focused on, their thoughts mingle into a confusing jumble. The caster must spend an additional turn to sort out one creature’s thoughts.

- **Meaning:** The caster understands the meaning of all thoughts even if they do not share the creature’s language.

- **Obstructions:** The ability to perceive thoughts is obstructed by a thin layer of lead or by rock of 2’ thick or greater.
**Invisibility**

Duration: Permanent (but may be broken, see below)
Range: 240’

The caster or another creature or object within range becomes invisible:

- **If cast on a creature:** Any gear the subject is carrying is also rendered invisible (this includes clothing and armour). Items dropped or put down by an invisible creature become visible. If the subject attacks or casts a spell, the invisibility is broken, ending the spell.
- **If cast on an object:** The invisibility is permanent.
- **Light sources:** If a light source is made invisible (either as part of a creature’s gear or as an individual object), the light it casts remains visible.

**Knock**

The *knock* spell opens stuck, barred, or locked doors, gates, chests, and so forth.

Phantasmal Force

Duration: Concentration
Range: 240'

A visual illusion of the caster's choosing manifests in a 20’ cube area. Three types of illusions may be created:

1. **An illusionary monster:** That can be directed to attack. The monster has an Armour Class of 9 [10] and will vanish if hit in combat.
2. **An illusionary attack:** For example, an avalanche, a falling ceiling, a magic missile, etc. Targets who save versus spells are unaffected.
3. **A scene:** Either changing the appearance of the affected area or creating the appearance of something new. The scene disappears if touched.

**Stipulations:** The following apply:

- **Concentration:** Is required to maintain the illusion. If the caster moves or loses concentration, the spell ends.
- **Illusionary monsters or attacks:** May appear to be harmful but but never inflict real damage. A character who appears to die actually falls unconscious, a character turned to stone will actually be paralysed, and so on. Such effects last for 1d4 turns.
- **Illusions from imagination:** If the illusion is of something the caster has not personally seen, the referee should grant targets a bonus to any applicable saving throws.

- **Entanglement:** Creatures caught within a web become entangled among the gluey fibres. Entangled creatures can’t move, but can break free depending on their strength (see below).

- **A knock spell:** Allows passage.
- **Higher level casters:** Any magic-using character who is at least 3 levels higher than the caster of the *wizard lock* may pass through unimpeded.

► Subject’s nature: Commands that contradict the charmed creature’s habits or alignment may be ignored.
► Suicidal commands: An affected creature never obeys suicidal or obviously harmful orders.

► INT 13–18: The creature gains a new save once every day.

<table>
<thead>

► **Zombies:** Have AC 8 [11] and HD one greater than the creature had in life.
► **Classed characters:** If a PC or NPC with levels in a class is reanimated by this spell, the levels are not counted as HD. For example, the reanimated corpse of a 5th level fighter would have 2 HD (1 HD as a normal human, +1 for being reanimated as a zombie).

- **Materials:** The summons requires a large volume of the appropriate element.
- **Concentration:** Is required to command an elemental.
- **Dismissing:** While control over the elemental is maintained, the caster may dismiss it at any time, sending it back to its plane of origin.
- **Disruption:** If the caster moves at more than half speed or their concentration is disturbed, the command over the elemental ends. It is, henceforth, a free-willed entity and will immediately try to kill the caster and any who get in its way.

Contact Higher Plane

Duration: One conversation  
Range: The caster

A channel of communication is opened to a higher plane of existence, allowing the caster to ask powerful, otherworldly beings for advice and knowledge on any subject.

▶ **Plane**: The caster must choose which plane of existence to contact: communion with beings of the 3rd to 12th planes is possible via this spell. Higher numbered planes are home to more powerful and knowledgeable beings.

▶ **Questions**: The caster may then ask a number of simple yes/no questions equal to the number of the plane contacted. The referee plays the role of the contacted being, responding to the caster’s questions.

▶ **Answers**: For each question asked, there is a chance of the contacted being not knowing the answer or of answering untruthfully: see the table to the right. It is impossible to detect whether the entity is lying.

**Restrictions**: Casting *contact higher plane* is a great and perilous deed.

▶ **Usage limit**: It may be cast at most once per week. (The referee may limit the spell’s usage to even less frequently, if desired.)

▶ **Insanity**: Communion with otherworldly beings of great power can shatter the caster’s sanity. The basic chance is shown in the table above. For every level of the caster above 11, this chance is reduced by 5%. If the caster is driven insane as a result of the communion, the recovery time is a number of weeks equal to the number of the plane contacted.

**Range:** The caster

The caster’s body enters a comatose trance as their life-force is transferred into a receptacle (any inanimate object within 30’), known as a *magic jar*. From there, the caster may attempt to possess the bodies of other creatures.

*When the caster’s life-force is in the magic jar:*

- **Possession:** The caster may attempt to possess the body of another creature within 120’. The victim may *save versus spells* to resist possession. If the save is successful, the caster may not make another attempt to possess that victim for one turn. If the save fails, the caster’s life-force leaves the magic jar and enters the victim, possessing it.

- **Returning:** The caster may choose to return to their own body at any time, ending the spell.

- **If the magic jar is destroyed:** The caster dies.

- **If the caster’s own body is destroyed:** Their life-force is stranded in the magic jar.

*When the caster’s life-force is possessing a victim:*

- **Control:** The caster gains full control over the victim’s body, but is not able to make the victim cast spells.

- **If the magic jar is destroyed:** The spell ends and the caster’s life-force is trapped in the possessed body.

- **If the possessed victim is killed:** The caster’s life-force returns to the magic jar.

- **Dispelling:** *Dispel evil* forces the caster’s life-force back into the magic jar.

- **If the caster’s own body is destroyed:** Their life-force is stranded in the body of the creature being possessed.

---

**Pass-Wall**

**Duration:** 3 turns  
**Range:** 30’

A 5’ diameter hole is temporarily opened in solid rock or stone, forming a passageway up to 10’ deep.

---

**Telekinesis**

**Duration:** Concentration (up to 6 rounds)  
**Range:** 120’

By concentrating, the caster is able to move objects or creatures by the power of thought.

- **Weight:** Up to 200 coins of weight per level of the caster may be targeted.

- **Movement:** The target may be moved up to 20’ per round, in whatever direction the caster wishes (including vertically).

- **Save:** If a creature is targeted, it may *save versus spells* to resist the spell.

- **Concentration:** If the caster’s concentration is broken, the target will fall.
**Teleport**

**Duration:** Instant  
**Range:** 10’

The caster or a chosen creature vanishes and reappears at a location of the caster’s choosing.

- **Gear:** The subject is teleported with all its gear, up to its maximum load.
- **Unwilling subjects:** May save versus spells to prevent the teleportation.
- **Destination:** May be at any distance, but must be known to the caster. The destination must be an open space at ground level. (It is not possible to intentionally teleport the subject into mid-air or into solid matter.)

**Risk:** There is a risk, when teleporting, of accidentally arriving above or below ground level. The chance of a successful teleportation depends on the caster’s knowledge of the destination (see right). Roll d% and consult the table below.

**Transmute Rock to Mud**

**Duration:** 3d6 days / Permanent (*transmute mud to rock*)  
**Range:** 120’

This spell turns up to 3,000 square feet of rock into 10’ deep mud.

- **Movement:** Any creatures passing through the mud have their movement rate reduced by 90%.

**Reversed: Transmute Mud to Rock**  
Changes an area of mud—up to 3,000 square feet and up to 10’ deep—into rock. This alteration is permanent.

**Wall of Stone**

**Duration:** Permanent  
**Range:** 60’

A wall of solid rock appears.

- **Size:** The wall may be of whatever shape the caster desires and is of 1,000 cubic feet in volume. (For example, a 2’ thick wall, 50’ long and 10’ high.)
- **Location:** The wall must rest upon a solid surface and may not be evoked so that it appears where objects are.
6th Level Spells

Anti-Magic Shell

**Duration:** 12 turns  
**Range:** The caster

An anti-magic barrier is created around the caster.

- **Blocks magic:** No spells or spell effects can pass through this barrier, whether from inside or outside.
- **Dismissing:** The caster may end this spell at any time before the duration has expired.

Control Weather

**Duration:** Concentration  
**Range:** 240 yards around the caster

By concentrating (no movement allowed), the caster causes one of the following conditions to manifest around themselves. This spell only functions outdoors.

- **Calm:** Clears bad weather (though side-effects—e.g. mud after rain—remain.)
- **Extreme heat:** Dries up snow or mud (including *transmute rock to mud*). Creatures in the area move at half normal rate.
- **Fog:** Visibility drops to 20’. Creatures in the fog move at half their normal rate. At the referee’s option, they may also have a chance of getting lost.
- **High winds:** Movement rates are halved. Missile fire and flight are impossible. High winds may be used to increase the sailing speed of ships by 50%, if they travel with the wind. In sandy areas, may cause a sandstorm, reducing visibility to 20’.

- **Rain:** −2 penalty to missile attacks. Mud forms in 3 turns, halving movement rates.
- **Snow:** Visibility drops to 20’. Movement rates are halved. Bodies of water may freeze. After the snow thaws, mud remains and still impedes movement.
- **Tornado:** The caster can direct the tornado, which moves at 120’ per round. The tornado can be directed to attack (see stats below). Ships caught in a tornado have a 75% chance of suffering 12 points of hull damage.

**Tornado**

A whirling column of air, 24’ high and 6’ across, that wreaks havoc for flying creatures and ships.

| Whirlwind: Creatures with less than 2HD swept aside (**save versus death**). |
| Mundane damage immunity: Can only be harmed by magical attacks. |
| Harm flying creatures: Inflict extra 1d8 damage. |

Death Spell

**Duration:** Instant  
**Range:** 240’

Up to 4d8 Hit Dice of creatures within a 60’ cube area must **save versus death** or die, instantly.

**Restrictions:** Undead and creatures with greater than 7 Hit Dice are unaffected.
**Disintegrate**

Duration: Instant  
Range: 60’

The material form of a single, non-magical creature or object is instantly and permanently destroyed.

- **If a creature is targeted:** It may save versus death to resist disintegration.
- **Examples of objects:** The following might be targeted: a tree, a ship, a 10’ section of wall.

**Geas**

Duration: Permanent / Instant (remove geas)  
Range: 30’

The caster commands a subject to perform or avoid performing a specific action.

- **Examples:** Bringing a specific item to the caster, eating or drinking without restraint, keeping a certain fact secret.
- **Impossible or deadly tasks:** The prescribed geas must not be impossible or directly deadly—if such a geas is cast, it affects the caster, instead.
- **Saving throw:** The subject may save versus spells, to avoid coming under the spell’s effect.
- **If the save fails:** The subject must follow the stipulated course of action or suffer gradually increasing (and eventually fatal) penalties determined by the referee. e.g.: penalties to attack, ability score reductions, inability to memorize spells, physical torment and feebleness, etc.

**Reversed: Remove Geas**

Can dispel an active geas spell and any incurred penalties. If the caster of the geas to be nullified is higher level than the character casting remove geas, there is a chance of the spell having no effect. The probability of spell failure is 5% per level the caster is below the caster of geas.

**Invisible Stalker**

Duration: One mission  
Range: Summoned to caster’s presence

An invisible stalker (see below) is summoned to the caster’s presence and magically bound to perform a mission of the caster’s choosing.

- **Wording:** The caster must be careful with the wording of the mission. Invisible stalkers are treacherous and, unless the assigned mission can be easily and quickly accomplished, will follow the letter of the command while twisting the intent.
- **Duration:** The creature is bound to attempt the mission until it succeeds or is destroyed.
- **Banishing:** The spell dispel evil will banish an invisible stalker, ending the spell.

**Invisible Stalker**

Highly intelligent, magical creatures summoned from another plane of existence to perform tasks for powerful magic-users.

- **Tracking:** Without fault.
- **Surprise:** 5-in-6, unless target can detect invisibility.
- **If killed:** Returns to plane of origin.

**Lower Water**

Duration: 10 turns  
Range: 240’

This spell reduces the depth of a body of water by half for the duration. An area of up to 10,000 square feet may be affected.
**Move Earth**

*Duration:* 6 turns  
*Range:* 240’

Earth (but not stone) within range is rearranged as the caster wishes.

- **Movement rate:** The caster can move earth in the area at up to 60’ per turn.
- **Excavations:** The range of the spell also extends downwards, allowing excavations to be made.

**Part Water**

*Duration:* 6 turns  
*Range:* 120’

The caster creates a path 10’ wide and a maximum of 120’ long through water, such as a pond, lake, or other body. The caster can dismiss the spell’s effect before the duration ends.

**Projected Image**

*Duration:* 6 turns  
*Range:* 240’

An illusory duplicate of the caster appears within range.

- **Duplicate:** The image is an exact duplicate of the caster that can only be differentiated by touch.
- **Subsequent spells cast:** Appear to originate from the image. (Targets must still be visible to the caster, however.)
- **Spells and missiles:** The image appears unaffected by spells or missile weapons.
- **Melee or touch:** If the image is touched or hit in melee, it disappears.

**Reincarnation**

*Duration:* Permanent  
*Range:* Appears in the caster’s presence

A dead character is returned to life in a new physical form that manifests in the presence of the caster. The character’s new body is not necessarily the same as the original; it is determined by rolling on the *Reincarnated Class* table opposite.

The roll indicates either a character class or a monster:

- **Character class:** The character is of experience level 1d6 (or at most the same level as the character achieved before death). The reincarnated character can continue to gain experience and advance as normal, in the new class.
- **Monster:** The type should be determined by the referee. The monster should be at least partially intelligent, have no greater Hit Dice than the level of the character being reincarnated (at most 6 HD), and be of the same alignment. The tables opposite may be used, or the referee may create their own tables. Monsters cannot gain experience or advance in level.

**Stone to Flesh**

*Duration:* Permanent  
*Range:* 120’

This spell transforms stone into living flesh. It is especially useful for restoring life to a petrified creature and its equipment to its normal state.

**Reversed: Flesh to Stone**

Turns one creature into a statue, including all gear and any items currently held. A *saving throw versus paralysis* is permitted to resist the transformation.
